DETAILED ACTION

Claim Objections

Claims 1-14 are objected to because of the following informalities: Each claim must be the object of a sentence starting with "I (or we) claim," "The invention claimed is" or the equivalent. An article like "a" or "the" at the beginning of each of the claims would overcome this objection. See MPEP 608.01(m).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites, "including at least one rotating drivable sheet conveyor, which is provided to accept or grip a front end of a sheet and to place the sheet on a stack of sheets after traversing a rotation path, and a sensor device to detect the attained stack height or the attained level, which has at least one sensor, which functions, simultaneously, as a holding-down element for the stack, which is lifted, mechanically controlled, from the stack, for the release of the stack, so as to place the next sheet on the stack." This limitation has already been recited in claim 1, from which claim 8 depends.

Allowable Subject Matter

Claims 1-7 are objected to, but would be allowable if rewritten to overcome the objection.

Claims 8-14 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. This could be fulfilled by deleting the duplicative language in claim 8.

Response to Arguments

Applicant's arguments, filed 9 March 2009, with respect to the claims have been fully considered and are persuasive. The rejection of the claims over Scarlata (US 5,518,230) has been withdrawn.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
